ProtectUK

ACT Awareness and ACT Security e-Learning are now available in one place on ProtectUK

ProtectUK publication date
05/02/2024

The Security Industry Authority (SIA) launches Action Counters Terrorism (ACT) Security e-Learning for security professionals on ProtectUK.

ACT Security e-Learning is specialised counter-terrorism awareness training that provides up-to-date knowledge to help security operatives prepare and respond to terrorist incidents. It is now accessible on the ProtectUK platform alongside the ACT Awareness e-Learning.

To access the ACT Security e-Learning from Monday 5th February, security operatives no longer need to email the SIA to request a pin to register. You will be able to register and log in to complete your online learning course on the ProtectUK website.

The ACT Security course takes around 1 hour 15 minutes to complete, and its flexible delivery allows the user to pause and save progress. When taken with the ACT Awareness e-Learning, it covers the entire counter-terrorism content for SIA licence-linked qualifications and top-up training.

Visit the ProtectUK e-Learning hub to access [ACT Awareness and ACT Security e-Learning](#).
