

Project Pegasus: Help Keep Small Airfields Secure

ProtectUK publication date

07/04/2025

Project Pegasus is a joint law enforcement operation tackling aviation border crime around the UK.

Authorities are calling on the public and aviation community to be extra vigilant around small airfields as part of Project Pegasus, a national initiative to tackle border crime and terrorism. These often less-scrutinized locations can be exploited for illegal activities.

Project Pegasus urges individuals to report any suspicious behaviour, including unusual aircraft activity, nervous individuals, or unexplained deliveries. Your vigilance could be vital in preventing serious crime.

If you see something, say something.

Report suspicious activity via the dedicated phone line: **0800 011 3304**. In an emergency, always call **999**.

[For more information on what to look out for, and how to report, visit the Project Pegasus website.](#)
