ProtectUK

New refreshed ACT Awareness e-Learning course launched

ProtectUK publication date
08/06/2026

ProtectUK and National Counter Terrorism Security Office (NaCTSO) have released an updated version of their popular ACT Awareness e-Learning course, featuring significant improvements to accessibility, content, and practical application.

The refreshed course has been redesigned to meet higher accessibility standards, ensuring more learners can engage effectively. New filmed exercises bring real-world scenarios to life, helping users develop stronger practical decision-making skills. Optional add-on modules are also available for those wishing to explore topics in greater depth. These add- on modules will be available in June.

The course remains available free of charge via ProtectUK. ACT Awarenss is also offered as a SCORM package for organisations wishing to integrate it into their own Learning Management Systems. All content has been updated to reflect the latest national guidance.

Suitable for staff working in venues, public spaces, and CNI sites, as well as members of the general

public, the course covers key topics including suspicious activity and security vulnerabilities.

Access the updated course here.
