Businesses Invited to Learn About Crime Prevention Toolkit in Free Online Session

ProtectUK publication date
02/06/2026

Please note that this session was a repeat of a previous event and has now reached full capacity.

Businesses across the UK are invited to join a free online event showcasing the National Counter Terrorism Security Office's (NaCTSO) Crime Prevention Toolkit.

Taking place on **Wednesday 24 June 2026 from 12.30pm to 1pm**, the session will introduce attendees to the NaCTSO INSIGHTS product, which brings the existing Counter Terrorism Crime Prevention Toolkit on ProtectUK to life through a short video presentation.

During the event, participants will be guided through the toolkit's key features and learn how it can help organisations strengthen security measures, protect staff, reduce risks and improve public safety.

The session is particularly relevant for small and medium-sized enterprises (SMEs), retailers and businesses looking to enhance their approach to crime prevention, target hardening, loss prevention and security awareness.

Attendees will have the opportunity to see how practical crime prevention measures can be implemented within their own organisations and gain valuable insights into protecting their business, employees and customers.

Please note that this session was a repeat of a previous event and has now reached full capacity. Thank you for your interest.
