

Hostile Vehicle Mitigation (HVM)

ProtectUK publication date

23/11/2021

NPSA offer guidance to help practitioners determine the vehicle-borne threat, assess site strengths and vulnerabilities, and identify suitable options for HVM (Hostile Vehicle Mitigation).

Vehicle borne threats range from vandalism to sophisticated or aggressive attack by terrorists or determined criminals. Vehicles (such as cars, vans and lorries) are widely available and terrorists have previously gained access to them through a number of means.

For more information, please visit the [NPSA website](#).
